Invitation

Dear Colleagues,

On behalf of the Korean Academy of Allergy, Asthma and Clinical Immunology (KAAACI), we are delighted to welcome you to Seoul for the 2018 KAAACI-EAAS-SERIN ASIA Joint Congress in conjunction with APAAACI.

Founded in 1972, the KAAACI has successfully hosted many conferences and expanded its academic collaborations with international organizations including the Asia Pacific Association of Allergy, Asthma and Clinical Immunology (APAAACI), West Pacific Allergy Symposium (WPAS), East Asia Allergy Symposium (EAAS), INTERASMA and World Allergy Organization (WAO). The Joint Congress 2018 is to be held on May 10–12, at Grand Hilton Hotel in Seoul, Korea. This year, in particular, the Symposium on Experimental Rhinology and Immunology of the Nose (SERIN) ASIA will also take place to provide a cutting-edge knowledge on allergic rhinitis and chronic rhinosinusitis.

The scientific program this year is prepared under the theme of phenotypes, endotypes and precision medicine in clinical and research field of allergic diseases. It will encompass immunology, translational research and real world clinically practical information. This opportunity will help you to understand how to characterize each patient by their phenotypes and endotypes and how to approach individualized precision medicine. We look forward to having you here sharing many intellectual perspectives during the Congress.

We are looking forward to seeing many of you at KAAACI-EAAS-SERIN ASIA Joint Congress in conjunction with APAAACI in Seoul.
