The Korean Academy of Asthma, Allergy and Clinical Immunology

Dear Colleagues,

On behalf of the Korean Academy of Allergy, Asthma and Clinical Immunology (KAAACI) and Korean Academy of Pediatric Allergy and Respiratory Diseases (KAPARD), we are delighted to welcome you to Seoul for the 2019 KAAACI-KAPARD-WPAS-INTERASMA Joint Congress.

The KAAACI and KAPARD have successfully hosted many conferences and expanded its academic collaborations with international organizations including the Asia Pacific Association of Allergy, Asthma and Clinical Immunology (APAAACI), West Pacific Allergy Symposium (WPAS), East Asia Allergy Symposium (EAAS), INTERASMA and World Allergy Organization (WAO). The 2019 Joint Congress is to be held on May 10-11, at the Grand Hilton Hotel in Seoul. Korea.

The scientific program this year is prepared under the theme, "Allergy across the lifespan", brought by the clinical and research field of allergic and respiratory diseases. It encompasses immunology, translational research and real world clinical information. This opportunity will help you understand each disease and their intermediate phenotypes, including lung function and allergic sensitization, which diverges with age. We also introduce methods on how to approach individualized precision medicine for allergic diseases. We look forward to having you here, sharing many intellectual perspectives during the Congress.

We are looking forward to seeing many of you at KAAACI-KAPARD-WPAS-INTERASMA Joint Congress in Seoul.

> Dong-Chull Choi, Chairman Ho Joo Yoon, President The Korean Academy of Asthma, Allergy and Clinical Immunology (KAAACI)

Hai Lee Chung, Chairman Yeong-Ho Rha, President Korean Academy of Pediatric Allergy and Respiratory Disease (KAPARD)

> Ho Joo Yoon, President West Pacific Allergy Symposium
